Review

Approval

• We will send you an approval email, which contains the official emblem data (.ai or .jpg) .

Disapproval

We will send you a disapproval email, which contains a reason for disapproval.
*Please re-apply if necessary.

■ Principles of use

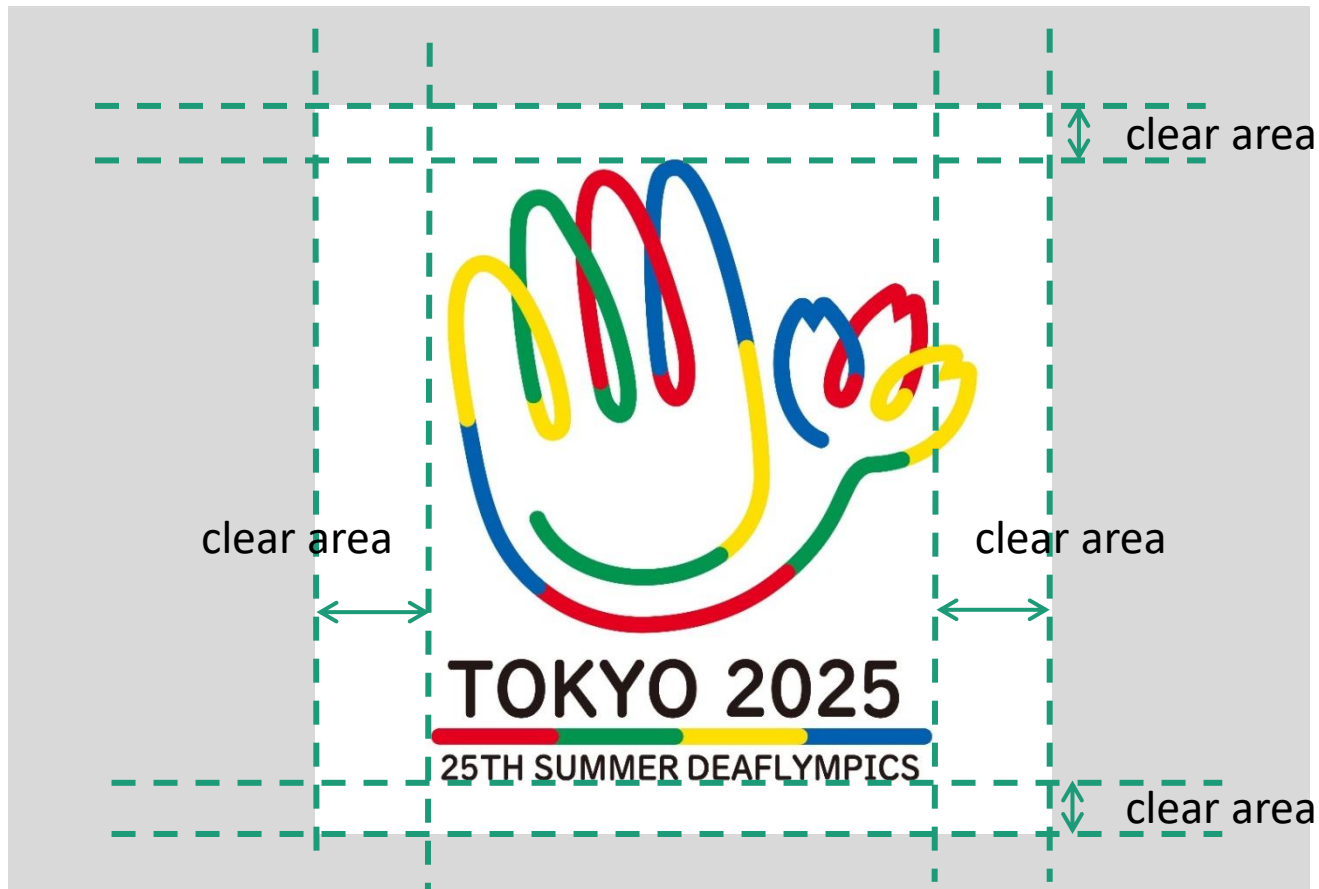

Basically, the Emblem should be used in full colour on a white background. Do not alter the margins of the data provided. Certain spaces between the Emblem and the other elements are important so that the Emblem can be recognised correctly.

■ Clear area

In order for the Emblem to be recognised correctly, it is important to leave a certain distance between it and other elements. This minimum distance that must be observed is called 'Clear area.'

Please use the data provided by the OC TOKYO 2025 as it is. Please do not remove the clear area.

■ Colour guide

Basically, the Emblem should be displayed in full colour on a white background. When printing, please specify the following CMYK values or use the Emblem data sent with the approval e-mail.

However, if it is difficult to display in full colour due to media or printing restrictions, a monochrome Emblem is also possible.

■ Background colour

Basically, the Emblem should be displayed in full colour on a white background. However, if it is displayed on a photo or coloured background, a boxed emblem or another appropriate manner should be used.

Example of a full-colour Emblem on a white background

When displaying the Emblem in full colour on a “coloured background”, use the boxed emblem.

*“coloured background” includes coloured paper, such as recycled paper.

■ Incorrect usage

The following examples show common incorrect usage of the Emblem.

When displaying the Emblems incorrectly, the brand value of the Emblem is damaged. In addition, combining the DEAFLYMPICS Emblem with a logo or name of another organisation or placing them very close to each other can mislead people into believing that there is a relationship between that organisation and the TOKYO 2025 DEAFLYMPICS. Therefore, please do not display the Emblem inappropriately, as in the following examples.

Do not deform the Emblem, such as changing the proportions of the length and width of the Emblem.

Do not incline the Emblem.

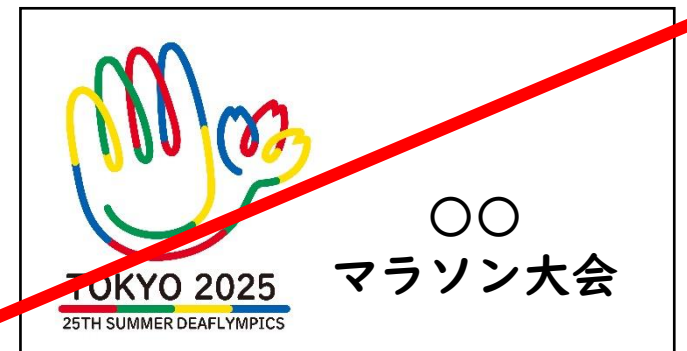

Do not change the original colour of the Emblem.

Do not add shadows or frames to the Emblem.

Do not combine the Emblem with the mark of a other organization or place them very close to each other.

Do not place the Emblem very close to other event titles.

■ Examples of the Emblem on flyers and posters etc.

1. The Emblem and other logos must be placed at a certain distance from each other.
2. Media that display the Emblem must contain content related to the TOKYO 2025 DEAFLYMPICS.
3. The names of the organisations that created the flyers and the Deaflympics Emblem will be displayed at a distance from each other. So that it becomes clear that the two are separate entities.
4. In principle, when using the Emblem alone, include the notation "Emblem of the TOKYO 2025 DEAFLYMPICS". In addition, please be sure to secure Clear area.
